

PATENT

REMARKS

Reconsideration of the rejections set forth in the Office action dated 09/23/2003 is respectfully requested under the provisions of 37 CFR §1.111(b).

Claims 1-13 are pending.

Claims 1-6 and 11-13 are rejected.

Claims 7-10 are objected to.

Claims 1, 12 and 13 have been amended.

Applicant points out that the Office Action Summary indicated that claims 1-13 were rejected. Applicant has interpreted the status of the claims in light of the Office Action, and not that of the Office Action Summary.

Claims 1-6 and 11-13 were rejected under 35 USC 102(b) as being anticipated by Blanford. The Examiner contends that the terms "being positioned relative to" and "spatially related to", when viewed broadly such that the images can be far from each other brings the claim within Blanford.

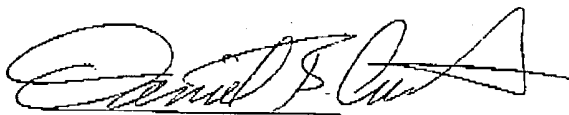

Applicant has amended Claims 1 and 13 to make it clear that both images are viewed using a display. Thus, amended Claims 1 and 13 are believed to address the Examiner's concerns as both images are viewed using the same display (or display system) and thus are in close proximity with respect to the display unlike Blanford. Applicant has amended Claim 12 to fix a typographical omission of a period at the end of the sentence.

Applicant respectfully submits that this application is in condition for allowance and such action is therefore respectfully requested.
